Dear Mr. Joe Bentreovato,

I am interested in your Assistant Women's Basketball job at Hillsborough Community College. I am interested in this job because I would like to gain more experience as an Assistant Coach at the NJCAA level.

I am graduating with my Bachelor's Degree in Sports Management in the Spring of 2020. Having a Sports Management degree prepares me for this job by not only how to run an organization from the top but manage a team as well as a budget. Although I am young I have lots of experience under my belt in just volunteer work. I was a youth basketball coach for 5th and 6th grade at Community R-VI as well as an Assistant to the Highschool team. I am currently a Student Assistant for MVC's Women's Basketball. Before I came to MVC, I was at North Central Community College and played for their Women's Basketball Team where we were Nationally Ranked 5th as well Regional Champs. My Junior College experience is one of the main reasons why I want to stay involved in the NJCAA level. This because I had great mentors as Coaches and the environment of JUCO is unbeatable. I want to make sure players get the same experience I was fortunate to have.

I would greatly appreciate the opportunity to discuss my qualifications with you. Attached is my resume and I look forward to talking more.

Sincerely,

Samantha Jett
